

# ARE YOU READY TO TAKE THE LEAD?

"When my apprentices have figured out something, when they get things done, when they pass an exam: these are the best moments of my working life. I take the lead by entrusting young people with responsibility."

*Matthias Suchomei | Training Supervisor | Germany*

Job Advertisement 6767 - Linde Gas Produktionsgesellschaft mbh & Co. KG

## HyCO ROC Process / Performance Engineer\*

### Leuna within the region Halle/Leipzig

#### What you will enjoy doing

- You are responsible for the efficient operation of the remotely connected Hydrogen plants in Europe to ensure reliable supply to our customers
- Therefore you will identify and implement best operational practice (BOP) for the remotely operated plants
- The support of the GAP program and benchmark operations performance as well as of the implementation of new Hydrogen plants into the HyCO ROC Centre are under your responsibility
- You will lead and coordinate troubleshooting with local team and global support functions
- The development and further improvement of the operational handbooks and manuals jointly with the local teams and the implementation and support of an alarm management system belong to your tasks

#### What makes you great

- You possess an engineering degree or equivalent in chemical or process engineering
- Experience in process plant related operation or engineering preferably related to Hydrogen technology would be a plus
- Strong analytical skills combined with high communication capability distinguish you
- You have very good IT skills in MS-Office and you are fluent in German and English, both written and spoken
- The willingness to travel and to participate in call-in duty round off your profile

#### Why you will love working with us

At the Linde Group you will be surrounded by knowledgeable people who love what they do. They are creative and strive to move our company forward. When facing adverse conditions, they work out unique technical concepts, in order to find the best solutions for our customers. At the same time, we are aware of our responsibility towards the safety of our employees at their workplace.

Linde acts responsibly towards its shareholders, business partners, employees, society and the environment in every one of its business areas, regions and locations across the globe. The company is committed to technologies and products that unite the goals of customer value and sustainable development.

We are looking forward to receiving your complete online application in German or English via our internal Job market. (including CV [also in German language if possible], application letter and references).
